

Upload Image To IBM Container

Date	08 November 2022
Team ID	PNT2022TMID30593
Project Name	Smart Fashion Recommender Application

CREATING REPOSITORY IN IBM CLOUD:

Create repository

1. Tag an image to point to this registry. Choose a local image, target namespace, and target repository.

```
docker tag <local_image> icr.io/<my_namespace>/<my_repo>
```

2. Push the tagged image.

```
docker push icr.io/<my_namespace>/<my_repo>
```

UPLOAD IMAGE TO IBM CONTAINER REGISTRY:

The screenshot shows the IBM Cloud Container Registry interface. The sidebar on the left contains the following navigation items:

- Container Registry
- Quick start
- Namespaces (1)
- Repositories (1)**
- Images (1)
- Trash (0)
- Settings

The main content area is titled "Repositories". It features a "Location" dropdown menu set to "Global". Below this is a search bar and a "Create +" button. The repository list is as follows:

<input type="checkbox"/>	Name	Image count	Namespace	Last updated
<input type="checkbox"/>	 ibmproj icr.io/myproj/ibmproj	1	myproj	4 days ago

At the bottom of the table, there is a pagination bar showing "Items per page: 25" and "1-1 of 1 item". On the right side of the pagination bar, it shows "1" and "1 of 1 page" with navigation arrows.
